

**SWEDWOOD RUSSIA  
CONTROLLED WOOD COMMITMENT FOR  
FORESTRY DEPARTMENTS**

Company guarantees to control its wood sources (related to the controlled wood), in order to exclude the categories outlined in FSC-STD-30-010 FSC standard for forest managers supplying controlled wood:

- a) wood harvested from forest areas where traditional or civil rights are violated;
- b) wood harvested from non FSC-certified forest areas having high conservation values which are threatened (any of the high conservation values that are present);
- c) wood harvested from genetically modified (GM) trees;
- d) illegally harvested wood;
- e) natural forest that has been converted to plantations or non-forest use.

This policy on controlled wood will be revised according to FSC standard changes.
